Lucas Chanquía

Full Stack Web - Frontend Developer

lucaschanquia@gmail.com | Cel. +54 9 3515118325 | Córdoba – Argentina (GMT-3).

Linkedin - Github - Portfolio

Full Stack Developer with a background as a Web Designer. Experience working with React, NextJs, NodeJS, Redux, SQL, among other industry technologies, and in agile methodologies such as Scrum, GIT, data structures, algorithms, CSS frameworks, and more.

I am characterized by empathy, adaptability, initiative, curiosity, and have an aptitude for learning, as well as being self-taught. I am a lover of animals and nature.

TECHNOLOGIES

- HTML
- CSS
- Javascript
- Typescript
- React
- Vite
- NextJs
- Redux
- NodeJS
- Express
- PHP
- PosgreSQL

PROJECTS

- **Frontend Developer – App Livinng**   03/07/2023 – 29/07/2023
  Project carried out for Living Soft SAS.

  Livinng is an app designed for accommodation search, offering customers the ability to suggest and negotiate prices with hosts.
  One of my notable achievements in building the application was designing a visually immersive environment for creating new accommodations and providing a comprehensive preview when modifications are desired. This includes real-time data to ensure that hosts can constantly monitor and display the most relevant information.

  Technologies: HTML | Javascript | Taildwind | NextJs | Clerk | Prisma |Postgre SQL.
  Link User app | Link Dashboard

- **Frontend Developer – Code Partners**   02/08/2023 – 15/08/2023
  Software Factory.

  Code Partners is a company whose primary objective is to provide quality IT solutions to its clients, along with 24/7 support after completing the requested project.
  The team consists of 7 developers with over 2 years of collective experience, offering various service plans depending on the client's needs.

  Technologies: HTML | Javascript | Taildwind | NextJs | Figma | Prisma |Postgre SQL.
  Link App

- **Full Stack Web Developer - App Country**   05/06/2023 – 19/06/2023
  Academic experience. Henry Bootcamp.

  This application displays a total of 250 countries with relevant information, which is processed within the page in such a way that it can show details for each one and also give the user the ability to create various tourist activities. Additionally, some of its key features include: combined filtering, alphabetical sorting, specific API data querying, CRUD for tourist activities, etc.

  Technologies: HTML |CSS | Javascript | React | Redux | PostgreSQL | Sequelize.

- **Frontend Developer – Tribute Page / Product Landing Page / Technical Documentation Page / Survey Form**
  01/02/2022 – 01/06/2022
  Academic experience. Free Code Camp.

  This is a set of static web applications whose purpose was to implement the knowledge acquired in both web layout and web design. Responsive design and good programming practices were taken into account. They are a collection stored on CodePen. In the future, they will continue to be edited to achieve constant improvements in each one.

  Technologies: HTML | CSS.

WORK EXPERIENCE

- **Apex America. Cordoba, Argentina – Presential** (2019-2021).
  Apex is a telecommunications company (Call Center), and my role was to serve as a customer service advisor for Claro Argentina.

  My main responsibilities included addressing inquiries and handling administrative tasks conducted through social media channels (Facebook, Twitter, email, etc.).
  One of my achievements was obtaining the title of Assistant Supervisor, where I coordinated a team of 15 advisors. Key tasks included generating reports and planning actions to achieve the team's objectives.
  I also participated in an internal volunteering program called the 'Mentoring Program,' whose primary goal was to accompany and guide newly hired advisors to ensure a successful job integration. This involved sharing knowledge and teaching them work-related tools and skills.

PROFESSIONAL EDUCATION

- Full Stack Web Developer. Henry Bootcamp. 700 hours of theoretical and practical training. June 2023 (Completed)
- Responsive Web Design, Free Code Camp, 300 hours of theoretical and practical training. Febrero 2023 (Completed)
